

NEW DATES

WORKSHOP with RON YOUNG

Recovering from Serious Illness

As of now the new Recovering from Serious Illness Training program is:

PART 1 February 24 – 27

PART 2 May 26 – 29

PART 3 June 23 – 26

- *The Sisters of St. Mary Villa Sloatsburg NY* (one hour north of NYC)
- **The trainings begin at 3pm on Thursday and finish between 4 and 5pm on Sunday.**

This training has grown out of twenty years of working with the seriously ill both on an individual level and in spiritual retreat settings. It is designed to assist those persons seeking recovery from various stages of serious illness to actively participate in their healing process and full recovery.

In this three-part training we will work to understand the complexity of illness from a global spiritual perspective inclusive of psychological, social, environmental, and biological viewing points.

We will investigate the structure and hypnosis of the personality, its underlying mental attitudes, subconscious and unconscious construct, we so eagerly call ourselves, and begin to understand this label we call "ourselves" to be more accurately described as the Habit of Ourselves.

As we investigate we will begin to understand the depth of self-inflicted violence with its underlying trauma, pain and anguish, the inherent contraction of both the manifesting active life force within and through us and the subsequent contraction within the mental, emotional, and physical structures we embody and reduce to the Habit of Ourselves.

Having understood through both active investigation and experiential entry our mechanical models of generating the Habit of Ourselves, we then move to the Super Self-Conscious Reality of our Spirit-Soul Nature. Based in Love and Compassion we enter into active Regenerative Healing with God's Grace and Mercy, revealing what we are in our creative wholeness with God where we are shown what is truly possible.

RETREAT INFORMATION

This is a residential intensive offered at the beautiful Sisters of St. Mary Villa in Sloatsburg NY, one-hour north NYC.

The diet offered will be natural vegetarian cuisine with non-processed foods. Please notify us if you have special food considerations.

5. Soft pastels, colored pencils
6. Recording device if desired

PAYMENT AND REGISTRATION

Registration and confirmation is required by phone or email with Ron Young. A deposit is not required, payment will be accepted in full at the workshop.

FEES

WORKSHOP \$600.00 per retreat

ROOM AND BOARD \$150.00 per retreat

NOTE – This training is presented in three levels- attendance at all are required. Before the onset of the training please understand that the work of healing requires your commitment, compassion, forgiveness, patience, fortitude, and perseverance for yourself and above all else the manifestation of God's Grace – which is always with us. A teaching given without God's Grace is an incomplete teaching for it deposits the reality of possible futures within the history of the Habit of Ourselves (the original image of the blind leading the blind).

For those seeking healing in this work, investigation, exploration and application is required. This means a spiritual practice of particular work through which you will develop your connection, your communication and doorways of entry into the Creation to see what is truly possible with God. This will require a commitment of two to three hours per day of self-healing work. Between each training segment, there will be an additional forty to sixty hours of assigned work.

The majority of those who have taken this training during the last nine years and actually done the work on a daily basis have gone into remission and by God's Grace remained so.

If you cannot make the commitment to yourself to do either the daily work or the assignments, do not apply for this course. This particular work will reorganize you very deeply and is not for those who want to be primarily comforted, pitied, or spiritually entertained.

Lastly, those who come to work with me with an apparent serious illness must be under the care of a competent physician or physicians and receiving treatment for their apparent illness. There is no contradiction within the diverse manifestations of the healing traditions and modalities available to us, all are manifestations of God's Compassion and Mercy.

Your brother, Ron
